

HYGIENE FILM

Article number: 133800015211

Technical Data Sheet:

Material	PET (Polyethylenterephthalat)
Thickness	0,1 mm
Total solar energy transmitted	81 %
Total solar energy reflected	9 %
Total solar energy absorbed	10 %
Visible light transmitted	89 %
Visible light reflected	8 %
UV Transmittance (300 – 380 nm)	<1 %
Total energy rejected	16 %
g-coefficient	0.83
One-side scratch insensitive surface	yes
Width of film	1,52 m
Roll length	30 m
Weight	140g / m ²

Cleaning:

- easy to clean, a disinfectant can be used

Properties:

- not adhesive

Visual perception:

- interior/exterior: crystal-clear

Purpose / recommendation of the cardinal points:

- South, East, West, North

Attention: We recommend shortening the film in the edge area left and right by 1cm each, as otherwise a slight wave formation over the entire width cannot be excluded
